## RECOMMENDATIONS BEFORE YOUR HOSPITALISATION

## Preparations at home

### Fasting before your operation

You must not eat, drink or smoke during the 6 hours preceding your operation.

### Your medication

Take your usual medication, depending on the advice you were given by the anaesthetist at your pre-hospitalisation appointment.

### Pre-operation skin preparation

Pre-operation skin preparation is a necessary measure intended to reduce the risk of infection.

### Pre-operation shower

- Take a shower on the morning of the day you are going to hospital using the soap you were given by the Pre-Hospitalisation Department or a new liquid soap
- Dry yourself with a clean towel
- Do not apply any cream, perfume or deodorant
- Get dressed in clean clothes

If you think you may have difficulty showering, please inform our care team.

Soap your entire body starting with your hair by lathering from top to bottom.

Pay particular attention to the area that is to be operated on and the following parts of your body:

- Neck, armpits
- Umbilicus
- Groin fold
- Anogenital region
- Nails, hands and feet

## Hair removal

Depending on the medical advice you have received, body hair should be removed on the day of the operation.

Hair can be removed using:

- ✓ - Hair clippers
- ✓ - Hair removal cream: Carry out a skin test on a small area before use. Follow the manufacturer's guidelines and use a sealed product.

Do not use:

- ✗ - A mechanical or electrical razor (risk of microcuts which can be a source of infection)
- ✗ - Wax hair removal techniques (risk of infection when the hair regrows)

### Recommendations

Remember to:

- ✓ - Brush your teeth (without swallowing any water)
- ✓ - Ensure nails are clean and short
- ✗ - Remove nail polish (even clear varnish) and remove fake nails (hands and feet)
- ✗ - Remove all make up
- ✗ - Remove jewellery, Wedding ring, any piercings
- ✗ - Do not wear contact lenses

## On your admission to the hospital

- Present yourself at the admissions department with:
- Your identity card
  - Your social security and private health insurance card
  - Your signed informed surgical/medical consent

Please also ensure that you have everything you need for your stay:

- Clothes
- Toiletries, including towels and flannels
- Slippers (shoes and/or slippers that fasten to prevent falls)
- Change to buy water from the vending machine
- Specific medical devices (crutches, walking frame, prosthetics,...)
- Glycaemia device
- Personal medication

**Please do not bring valuable items or large sums of money with you. A safe is available in each room.**

## Discharge from hospital

### Outpatient surgery:

If your discharge is planned for the day of your operation:

- You must be accompanied when you leave the hospital
  - You must not drive yourself home
- You will be given post-operative advice by your surgeon and the medical team responsible for your care.

### Overnight stay (at least 1 night in hospital)

You will be given post-operative advice by your surgeon and the medical team responsible for your care. The discharge is done in the morning, at the latest at 11am.

We look forward to seeing you soon and will be happy to provide any further information you may require prior to your surgery. Thank you for your collaboration.

Your Pre-hospitalisation team
