HÔPITAUX ROBERT SCHUMAN

THE MEDICAL DAY HOSPITAL

OUR MISSION AND AREAS OF ACTIVITY

-> Medical treatment and care during a short stay in the following specialties:

- Gastroenterology
- Rheumatology
- Internal Medicine / Haematology
- Pain Management
- Orthopaedics
- Neurology
- ...

DESCRIPTION

The Medical Day Hospital is located on the ground floor of the Zithaklinik. It has 18 treatment places, including 14 treatment chairs and 4 beds.

Care at the Medical Day Hospital consists of treatments provided during the day and therefore does not require an overnight stay.

OPENING HOURS

The Medical Day Hospital is open Monday to Friday, from 7 a.m. to 6 p.m. Patients return home in the evening. The Medical Day Hospital is closed on weekends and public holidays.

BEFORE YOUR APPOINTMENT

You can eat and take your medication as usual (there is no need to fast).

Bring a book, newspaper, etc. to keep yourself occupied. You can obtain the Wi-Fi access code when you register.

You may be accompanied by a family member.

WHAT TO EXPECT

For certain therapies, patients need to be contacted one working day before their treatment so that the hospital pharmacy can prepare the medication. In most cases, this call takes place the day before, between 10 a.m. and 12 p.m.

Please arrive 15 minutes before your appointment at Desk No. 8 on the ground floor, take a ticket (-> Medical Day Hospital) and have your CNS card and identity card ready.

The receptionist will verify your identity and appointment. You will be given an identification wristband and patient identification labels.

Please take a seat in the waiting room until a nurse calls you.

The nurse will check your vital signs, insert a needle into a vein and, if necessary, take a blood sample before your treatment.

Your attending physician will visit you during your treatment.

At the end of your treatment, the needle will be removed and a dressing applied. You should remove the dressing after two hours.
